

Notice to Water Customers

IF YOU RECEIVE THIS LETTER, YOU ARE IN THE AFFECTED AREA

This is a letter to advise residents of construction activities affecting Joffre Street and Dunrovin Avenue. Dexter Construction has been contracted by the Town of Stewiacke to renew the water, sanitary, and storm mains and to complete a road reconstruction.

On May 23, 2024 as part of the above scope of work, your water will be shut-off from approximately 7am to approximately 6pm to perform these activities. Due to the potential for unforeseen circumstances with the current water system, please note that the water could be delayed in being turned back on.

We advise that you store a supply of water for cooking, cleaning, flushing toilets, etc. We also ask that you refrain from using appliances dependent on hot water, and if possible, to shut these appliances and your hot water tank off during construction, to prevent elements from burning out. We apologize in advance for any inconveniences this necessary work may cause you and appreciate your cooperation during this work.

Regards,

Andrew Austin, Project Manager
902-225-8712, aaustin@dexter.ca

Pat Fulton, Pipe Superintendent
902-483-3069, pfulton@dexter.ca

Matt Rice, Superintendent
