RE: Notice of Parking Access Changes at the Stewiacke Community Centre

Dear Residents of Stewiacke,

As of May 1, 2025, truck parking will no longer be permitted at the Stewiacke Community Centre. This change was first communicated to drivers in March 2025.

Our community's demographics are evolving, and with that, the demand for children and youth programming has grown significantly. We have experienced increased enrollment in our camps, children's programs, and before-and-after school care at the Community Centre.

To better serve our young residents, the space previously used for truck parking will be repurposed for recreational use. As part of the **2025–2026 capital budget**, plans include the construction of a **multi-sport asphalt pad**, which will support a range of youth and community activities.

Thank you for your understanding and continued support as we invest in the future of Stewiacke's families.

Sincerely,

A handwritten signature in blue ink, appearing to read "Doug Glasser", is written over a faint, illegible printed name.
