CONSTRUCTION NOTICE – TO PLEASANT HILL RESIDENTS

IF YOU HAVE RECEIVED THIS LETTER, YOU ARE IN THE AFFECTED AREA

November 6th, 2026

ROAD CLOSURE – MANHOLE INSTALLATION IN FRONT OF 16 PLEASANT HILL

As part of the Pleasant Hill Refurbishments Project for the Town of Stewiacke, Atlantic Snow and Ice Management will be installing two new concrete manholes – one for the sanitary sewer and one for the storm sewer – in front of 16 Pleasant Hill on **Monday, November 9th**. These manholes sit deep below the road, so the work requires a large excavation across the street, and Pleasant Hill will need to be fully closed at this location while the work is underway.

What to expect:

- **Road closure:** Pleasant Hill will be closed to all vehicle traffic in front of 16 Pleasant Hill from **8:00 am to 4:00 pm** on **Monday, November 9th**. If the excavation is completed and backfilled sooner, the road will reopen early.
- **Parking:** Parking for residents will be available at the start of Pleasant Hill (Main Street East end). If you live at or beyond 16 Pleasant Hill and will need your vehicle during the day, please move it to the parking area **before 8:00 am**. Vehicles will not be able to pass the work area until the road reopens.
- **Driveway access:** Homes immediately next to the excavation may not have driveway access during the closure. Please plan deliveries, appointments, and services around the closure.
- **Pedestrians:** Walking access past the work area will be limited. Please follow directions from traffic control personnel, who can direct you safely around the site.
- **Weather:** If weather or site conditions delay the work, the closure will be moved to the next suitable day and residents will be notified.

Please use caution near the construction area and follow posted signs and directions from traffic control personnel.

We understand that a full road closure is inconvenient, and our crew will work to complete the excavation and reopen the road as quickly and safely as possible. If you have a special need for vehicle access on this day (for example, a medical appointment or mobility concern), please let us know in advance so we can make arrangements.

Should you have any questions or concerns, please contact our Site Foreman, Ian Lake, at 902-790-2460.

Thank you for your patience and cooperation.

J. Gavin Davidson, ASIM President
